

REGISTRATION AND SOCIAL PROGRAMME

Congress Registration (all days)	
Regular	680 EUR
Student*/PhD*	400 EUR
Member ISE – Regular	650 EUR
Member ISE – Student*/PhD*	325 EUR
Accompanying person**	90 EUR

* Please provide proof of status via fax +49 3641 31 16-244 or e-mail registration@conventus.de and quote Biocat 2022.

** The registration fee for accompanying persons includes the get together and the congress dinner. The fee does NOT include the access to all scientific sessions.

Get together

Be our guest and round the evening off with some food and drinks. Meet your colleagues, friends and industrial partners in a relaxed atmosphere.

Date Sunday, 28 August
Time 19:00
Location TUHH • Building I • Cafeteria/Mensa

Conference dinner

Date Tuesday, 30 August
Departure 17:00 (from the TUHH)
Time 18:30–22:30
Location Boat MS Louisiana Star
Transfer A shuttle will pick you up outside the Hamburg University of Technology and take you directly to the departure point.

MAJOR TOPICS

- Computational analysis for enzyme discovery and design
- Structure-function analysis and enzyme optimization
- Enzymatic and whole-cell biotransformation
- Reaction cascades – Bioelectrochemical as well as chemo-/photoenzymatic
- Bioprocess engineering
- Synthesis of biodegradable materials and energy generation
- Carbon dioxide based biotechnology
- Sustainable industrial processes, biorefinery and bioeconomy

CALL FOR ABSTRACTS

Potential authors are invited to submit an abstract (length max. 2,500 characters incl. spaces) related to one of the major topics. An international review panel will assess the abstracts according to scientific content and suitability for the congress. Only a limited number of abstracts can be accepted for oral presentation, the other accepted contributions would be presented as lightning talks and posters.

Please note that all abstract authors will be notified about the acceptance of their abstracts by the beginning of June 2022 at the latest.

Online submission of abstracts at www.biocat-conference.de.

DEADLINE: 08 APRIL 2022

10th INTERNATIONAL CONGRESS ON BIOCATALYSIS

28 AUG–01 SEP 2022

HAMBURG UNIVERSITY OF TECHNOLOGY | GERMANY

CALL FOR ABSTRACT

WELCOME NOTE

The transition from fossil to a biobased circular economy requires cutting edge technologies that ensure economic growth with environmentally responsible action.

The future challenges which include utilization of natural resources, food supply, health, energy and the environment, can only be met in an interdisciplinary manner. Biocatalysis is one of the key technologies to address this complex task. Biotechnological products already find application in food, feed, chemical, pharmaceutical and cosmetics industry and the developing sustainable bioeconomy is expected to create new processes and products and new job opportunities.

The successful concept of biocat congress is aimed at integrating the know-how of highly acknowledged biologists, biochemists, chemists and engineers from academia and industry. Biocat congress offers a platform to form strategic alliances for future projects and innovations.

Since 2002 we have been organizing the biennial biocat conference series, which is focused on the rapidly evolving fields of biocatalysis and industrial biotechnology. The preceding International Congresses on Biocatalysis attracted more than 3,200 participants from over 40 countries.

The major topics to be addressed are:

- Computational analysis for enzyme discovery and design
- Structure-function analysis and enzyme optimization
- Enzymatic and whole-cell biotransformation
- Reaction cascades – Bioelectrochemical as well as chemo-/photoenzymatic
- Bioprocess engineering
- Synthesis of biodegradable materials and energy generation
- Carbon dioxide based biotechnology
- Sustainable industrial processes, biorefinery and bioeconomy

It is our aim to create a stimulating and open scientific atmosphere to foster the development of new collaborations.

It is our great pleasure and honor to invite scientists from all over the world to the 10th International Congress on Biocatalysis 2022 (biocat2022) to be held from 28 August–1 September 2022 at the Hamburg University of Technology (TUHH), Hamburg, Germany.

We are looking forward to welcoming you in Hamburg, an exciting and cosmopolitan city, and to share a successful and enjoyable meeting in person with you.

Garó Antranikian, Andreas Liese, Johannes Gescher

GENERAL INFORMATION

Venue

Hamburg University of Technology (TUHH)
Audimax I
Kasernenstraße 12
21073 Hamburg/DE

Date

28 August–01 September 2022

Congress chair

Prof. Dr. Dr. h. c. Garó Antranikian
Hamburg University of Technology
CBBS Center for Biobased Solutions
Kasernenstraße 12 (F)
21073 Hamburg/DE

Co-chairs

Prof. Dr. Andreas Liese
Prof. Dr. Johannes Gescher

Local organizing committee

Paul Bubenheim
Christin Burkhardt
Petra Esselun
Barbara Klippel
Neele Meyer-Heydecke
Laura Philipp
Franziska Rohweder
Ralf Grote
(Hamburg University of Technology, Germany)

Congress organisation and industrial exhibition

Conventus Congressmanagement & Marketing GmbH
Dana Nostitz
Carl-Pulfrich-Straße 1
07745 Jena/DE
Phone +49 3641 31 16-398
